

# ELECTRIC SHAFT DRIVE up to 50kW

- **Strong performance – low noise – emission-free – reliable**

In performance you have a true alternative to the built-in Diesel and added advantages such as low noise, minimal vibration, reliability and emission-free operation. These are considerable advantages over a combustion engine. Through appropriate adjustment of the propeller, hull speed is achieved in smooth water. Also the power necessary in rough seas will be available. Range is determined by battery capacity.

- **Controllable**

Our high-quality electronic regulator, controlled by a one-armed shift-lever, provides optimum choice of speed and economy.

## Performance specifications:

Type	WA 120/20	WA 180/25	WA 216/40	WA 233/50
Motortype	112M 20,0 4W	112M 25,0 4W	132M 40,0 4W	132M 50,0 4W
Power output	20 kW	25 kW	40 kW	49 kW
Battery-Voltage	120 V	180 V	216 V	233 V
Battery-Current	200 A	167 A	220 A	250 A
Efficiency	83 %	83 %	84 %	84 %
Cooling system	water	water	water	water
Weight	52 kg	52 kg	65 kg	65 kg
